

BONAIRE

NOVEMBER 12 -19, 2011
\$1379.00*P/P QUAD OCCUPANCY
2 BEDROOM BUNGALOWS

Bonaire is part of the so-called ABC islands (Aruba, Bonaire and Curacao) and is part of the Kingdom of the Netherlands. It lies in the Caribbean Sea approx. 12 Degrees north of the equator and 50 miles (80 km) north of Venezuela. It is a great Island for diving, hiking, Flamingo watching and you can even visit the donkey sanctuary.

The concept at Capt. Don's Habitat is total Diving Freedom. There are over 50 world class dives and most are within a 15 minute boat ride. Diving Freedom means 24 hours a day diving. Shore diving is a must at Habitat. Following accepted safe diving practices, you can grab a tank and go....whenever you want! Take a giant stride off the divers-only pier "baby dock" and you're already looking at clusters of starlet coral, surrounded by colorful wrasse and gobies, and the drop-off starts in 30 feet of water, only a few kicks away. The Resort offers three 1-tank boat departures daily to over 50 moored sights on our custom built dive boats. Each mooring buoy is limited to 1 boat so you'll have the reef all to yourself. The Bungalows have 2 air-conditioned bedrooms, cable TV, room safes, patios, complete kitchens and telephones.

INCLUDED
